## MESSAGE

Dear friends,

I am pleased to invite you to the annual conference of the World Endoscopic Spine Society 2024 & 1st Delhi Orthopaedic Association Spine Conclave to be held in Delhi from 16th to 18th February 2024. The scenario of spine surgery is fast changing with surgeons and patients both opting for minimal to very minimal access surgical interventions, as the time of recovery needs to be shortened for the patient so does the incision for the surgeon. While there is a multitude of systems available to the surgeon to this purpose the training opportunities for the same are however lacking.

The focus of this conference will be on minimal access spine surgery specifically on DESTANDAU and UBE techniques with informative lectures, presentations, live surgeries and hands on cadaveric workshop. All aspects of percutaneous and minimal access spine surgeries will be discussed and showcased by the faculty. This will be a perfect opportunity to learn from the masters of the trade and other noted luminaries from the field. I would encourage my colleagues and fellow spine surgeons to participate in this conference, to share their experiences with all as well as enrich their own surgical wisdom.

New Delhi the conference venue city and capital of India offers an amalgamation of distinct cultures. The city offers multiple site seeing options of ancient and medieval monuments forts and fortresses.

Looking forward to see you all in Delhi in February 2024!

**Dr (Prof) Vinod Kumar**  
ORGANIZING CHAIRMAN

**Dr Monu Singh**  
ORGANIZING SECRETARY
